

Hey everyone! I'm Callie from Phoenix Arise Foundation, and I'm so excited to share something amazing with you—Hobby to Hustle!

This is all about helping youth turn their passions into financial independence. I'll be teaching how to market skills, build websites, file taxes, budget, save money, and attract customers or clients. Because knowing how to make and manage money is a game-changer!

But here's where YOU come in! I'm looking for:

- ✓ People who want to share expertise on hobbies, trades, or business skills.
- ✓ Experts in marketing, sales, and safe selling platforms—for things like art, photography, and baked goods.
- ✓ And of course, people who want to support youth by purchasing their products or services!

This will roll out over the next few months, so stay tuned for updates! Share this, tag someone who might be interested, and let's empower the next generation together!

[Closing shot: Callie with a confident smile.]

Let's turn hobbies into hustles and build a future of independence!
